Personal Statement

Innovation-driven Software Engineer with a strong academic background in software engineering and a passion for creating transformative technology solutions. Recently graduated, I possess a diverse skill set and a fresh perspective to tackle complex challenges in the field.

During my studies in software engineering, I actively engaged in practical projects and collaborative research, honing my programming skills and gaining a deep understanding of software development principles.

An effective communicator and collaborator, I thrive in interdisciplinary teams, translating technical concepts into layman's terms and fostering productive work environments. With a dedication to lifelong learning, I stay up to date with emerging technologies and actively seek professional development opportunities.

As a passionate and adaptable software engineer, I am excited to contribute to the growth of a forward-thinking organization. I am driven to create innovative software solutions that address real-world challenges and propel businesses to new heights.

Highlighted Projects

Scrum Master: Developed an automated system to streamline the student pairing process for the technical mentor. Resulted in a simplified and efficient pairing process, demonstrating proficiency in software development, algorithm design, and project management.

Technical Skills

1. Programming Languages: JavaScript, Ruby.
2. Web Development: HTML, CSS and JavaScript.
3. Database Management: SQL, MySQL, PostgreSQL, SQLite.
4. Frameworks and libraries: React, Ruby on rails.

Academic Qualifications

Moringa School

Software engineering Certificate, November 2022 – May 2023

Ng'araria Girls High School

January 2018 – March 2022

Certification: Kenya Certificate of Secondary Education

Currently Pursuing

Diploma in Information Technology

Daystar University Kenya, Class of 2024

Future

Bachelors in computer science

Daystar University

Certification and Awards

Software engineering course. [Moringa School]
